

COVID-19 Vaccine Provider Webinar, April 22nd Highlights

Read below for topics covered or click links to view the video section for that topic.

Announcements

- The Texas Division of Emergency Management (TDEM) in coordination with the Texas Military Department (TMD) has established a Data Entry Center in Austin, TX. This Data Entry Center is capable of entering COVID-19 Vaccine Administration records into IMMTRAC2 on behalf of providers. If interested, please contact DataEntry@soc.texas.gov

Website Overview

- Our [Vaccine Management Resources page](#) is the one-stop-shop for all things Vaccine Management related! Explore this page to find recordings and slides from past webinars, information on storage and handling, and training guides on how to navigate VAOS and the vaccine process!

Newly Enrolled Providers: What to Expect

- You can start requesting COVID-19 Vaccine allocations as soon as you receive VAOS access! However, just because you submit an allocation request does not mean that you will receive vaccines right away; allocation decisions are made on a weekly basis based on supply.

VAOS System Starters

- Please remember that the default view on the Accounts page in VAOS is “Recently Viewed.” To ensure you are viewing all your organization’s accounts in VAOS, make sure you select “All Accounts” from the drop-down menu at the top of the screen.

Reporting

- Report daily to ImmTrac2 and TDEM! Also, if Bamlanivimab (BAM) is administered for the treatment of mild to moderate coronavirus disease, it is required to be reported to ImmTrac2.

Session Live Q&A:

- Is it okay if we administer vaccine allocations beyond a week of receiving them?
- How long does a punctured vial of Moderna last?
- What specifically should we be reporting into TDEM?
- Are there any recent updates to ImmTrac2 reporting?
